Masters of Linen is an association gathering only the best European flax and linen specialists & the hallmark of quality linen.

Linen, made from the flax plant, is **the** environmentally friendly, sustainable fibre. Masters of Linen flax is only grown in Europe, with the minimal of chemicals and no extra watering. Production from plant to fabric is a simple natural process. More info: www.mastersoflinen.com

Masters of Linen, association, marque, fibre, écologie, développement durable, toutes les informations en français : www.mastersoflinen.com
